

Arrays 5

11 April 2026 16:51

1) array traversal.

$arr = [1, 2, 3, 4, 5]$

```
for (int i = 0; i < arr.length; i++) {  
    cout << arr[i];  
}
```

1) string traversal -

String obj $\rightarrow$ Method: $length()$
String str = "abcd";

```
for (int i = 0; i < str.length(); i++) {
```
